ABOUT ME

I am looking for a job which uses my abilities to the fullest and always challenges me to learn. I hope to find a company that can match my eagerness to constantly improve and adapt.

My work experience has provided me with a high degree of technical acumen and an excellent business sense. I have a keen interest in workflow and systems and I see myself as an expert in using technology to improve the efficiency and efficacy of tasks both large and small.

EXPERIENCE

LEARNING TREE SALES/BUSINESS ANALYST

Nov 2014 – Mar 2019 | Herndon, VA

- Gathered, analyzed, and presented data on all aspects of the company's business, principally using Microsoft SQL Server, Excel and SSRS.
- Undertook project management responsibilities for several sales initiatives, including restructuring of sales compensation and territories.
- Learned and assisted with the management of an extensive database of current and historical company data and its interconnections with an in-house legacy software suite.
- Wrote, developed, and taught an internal class for intermediate and advanced Excel users.

K12 PRODUCT SUPPORT SPECIALIST

Fed 2012 – Oct 2014 | Herndon, VA

- Triaged and implemented fixes to grade school eLearning curricula, ranging from content issues in all subjects to technical faults in a web of IT systems including Content Management, Digital Asset Management, and Learning Management platforms.
- Developed tools and methods to streamline workflow and manage large quantities of data using Microsoft Excel.
- Developed new reporting metrics from user feedback and billing data.
- Supported publication of eLearning content from multiple content management systems to multiple online learning platforms.

FAIRFAX COUNTY PUBLIC SCHOOLS SUBSTITUTE TEACHER

Dec 2010 – Feb 2012

- Filled in for teachers across a large school district in a wide variety of subjects.
- Demonstrated responsiveness, adaptability, patience, and responsibility, as well as academic versatility.
